

PUBLIC NOTICE

PERMIT APPLICATION: NRS #03.315

APPLICANT: State of Tennessee
Department of Transportation
Environmental Planning and Permits Division
Suite 900, J. K Polk Bldg.
505 Deaderick Street
Nashville, TN 37243-0334
615/253-2477

LOCATION: SR-78 Bridge over Lewis Creek at Log Mile 2.63
Dyer County

WATERSHED DESCRIPTION: The Lewis Creek watershed consists of numerous smaller tributaries and wetlands. Land use is predominantly agricultural and is in close proximity to Dyersburg. Lewis Creek is primarily silt/sand/clay bottomed and varies in width approximately 25 feet wide with 12 foot banks. The existing vegetation along the creek channel is mixed grasses and few hardwoods.

PROJECT DESCRIPTION: The applicant proposes to replace the bridge and approaches of SR-78 over Lewis Creek.

Station 106+73.24: Lewis Creek. Existing open stream = 155 ft. plus 83 ft. of 2 @ 15 ft. X 15 ft. box culvert, plus 9 ft. of concrete apron at inlet plus 35 ft. of concrete girder bridge (southbound). Proposed 120 ft. of 2 @ 15 ft. X 15 ft. box culvert extension, plus 72 ft of 12 inch gabion mattress and rock fill for channel and bank stabilization.

Stream alterations will be mitigated by paying \$52,750 (Class II – \$10,950, Class III – \$41,800) to the Tennessee Wildlife Resource In-Lieu Fee Stream Mitigation Program. Standard erosion control devices would be used to prevent sediment from entering flowing water. Upon completion of the work, all disturbed areas would be stabilized.

PERMIT COORDINATOR: Brian Canada, STATE OF TENNESSEE, Department of Environment and Conservation Division of Water Pollution Control, 7th Floor, L&C Annex, 401 Church Street, Nashville, Tennessee 37243-1534

USGS TOPOGRAPHIC QUADRANGLE: **Dyersburg, TN (420-SW)**

TO WHOM IT MAY CONCERN: The application described above has been submitted for an Aquatic Resource Alteration Permit pursuant to *The Tennessee Water Quality Control Act of 1977*, T.C.A. §69-3-108.

The purpose of this notice is to advise all concerned of the proposal for which a permit is sought, and to solicit comments and information necessary to evaluate the probable impact of the activities upon the respective water resources. The decision whether to issue or deny will in part be based upon that evaluation. All factors that may be relevant to the proposals will be considered.

Persons wishing to comment on or object to the issuance of a proposed permit are invited to submit comments in writing to the Department of Environment and Conservation Division of Water Pollution Control at the address listed above. Written statements received in this office on

or before the date of expiration of the comment period thirty days from the publication date of this notice will become part of the record and will be considered in the determination. The applicant's name and permit number should be referenced.

Interested persons may also request in writing that the director of the Division hold a public hearing on any application. The request must be filed within the comment period and must indicate the interest of the person requesting it, and the reasons that the hearing is warranted. When there is sufficient public interest, the director shall hold a hearing in accordance with Rule 1200-4-7-.04(4)(f).

After consideration of comments submitted during the public comment period, the hearing record if any, and the requirements of federal and State law, the director of the Division will make determinations regarding the final action on each permit. Permit applications, supporting documentation, and related comments are available for review and/or copying.
